This indemnification obligation survive the termination or expiration of the registration agreement.
4. The registrant acknowledges and agree that they (the Registered Name Holder) are prohibited from distributing malware, abusively operating botnets, phishing, piracy, trademark or copyright infringement, fraudulent or deceptive practices, counterfeiting or otherwise engaging in activity contrary to applicable law, and that evidence of any such activity by the Registered Name Holder may result in application by the Registry or Registrar of consequences (consistent with applicable law and any related procedures) including suspension of the domain name.
5. Each registrant shall comply with each of the following requirements:
 - a. ICANN standards, policies, procedures, and practices for which the registry has monitoring responsibility in accordance with the registry agreement between the registry and ICANN (the “**Registry Agreement**”) or any other arrangement with ICANN; and

6. By registering a domain name, registrant certifies that they (the Registered Name Holder) are eligible to hold the Domain Name set out in Their application, and that all information provided in their domain application is true, complete and correct, and is not misleading in any way.
